

Education

Centro Profesional JOYFE

Madrid, Spain

Certificate of Higher Education in Web Application Development

September 2023 – June 2024

Relevant Coursework: Full development of web applications and a proprietary Web3, blockchain, and metaverse module.

Centro Profesional JOYFE

Madrid, Spain

Certificate of Higher Education in Multi-Platform Application Development

September 2020 – June 2022

Relevant Coursework: Use of multiple programming languages such as Java, C/C++, JavaScript, PHP, C#, Python, Kotlin and Cloud implementations with AWS.

High School: IES Jaime Ferrán Clúa
Spain

San Fernando de Henares, Madrid,
September 2020

Experience

TELYNET

Madrid, Spain

Android Developer

February 2026 – Now

- Development and maintenance of Android applications, using both Java/XML and Kotlin & Jetpack Compose. Development of SOAP Services with Java 8.
- Migration of applications from legacy architecture to modern architectures.
- Local-first application development.

AYESA

Madrid, Spain

Java Web & Android Developer

December 2023 – February 2026

- Development of web applications with JSF, using PrimeFaces with Java 8.
- Development of SOAP Services with Java 8.
- Development and Migration of Android apps from Java to Kotlin and to Jetpack Compose.
- Development of Stored Procedures and other uses of SQL Server databases.

Centro Profesional JOYFE

Madrid, Spain

Higher Education Teacher

September 2024 – Now

- Teacher of programming on Android with Kotlin and Jetpack Compose.
- Teacher of Cloud Infrastructure with AWS, using AWS Academy.
- Teacher of UX/UI development using Figma and applying it on Android, Web and C# WPF .NET solutions.

AYESA (As employee of Former Ibermática)

Madrid, Spain

Jira Developer & Administrator

April 2023 – December 2023

- Set up Jira for development or IT teams with workflows, automations with Jira or plugins such as Scriptrunner using Groovy.

AYESA (As employee of Former Ibermática)

Madrid, Spain

Big Data Administrator

January 2023 – March 2023

- Development of Python scripts for process automation and equipment monitoring.

Dars Telecom S.L.

Madrid, Spain

Junior QA Developer.

January 2023 – March 2023

- Test automation with Java 8, Selenium, Spring and dependency injection with Maven.

Mario Ríos Holgado

Skills & Interests Technical:

- **Mobile & AI Product Innovation**
 - High-Impact Android Development: Extensive experience building and maintaining performant Android applications using Kotlin & Jetpack Compose. Expertise in migrating legacy architectures to modern, reactive patterns to ensure smooth UX and reliability for large user bases.
 - On-Device AI & Local LLMs: Proven track record in the implementation and optimization of local LLMs on Android and iOS. Passionate about "on-device" execution to enhance privacy, reduce latency, and create seamless AI interactions.
 - Multiplatform & iOS Exploration: Experience with Kotlin Multiplatform (KMP) for shared logic and basic development in Swift/SwiftUI, enabling a holistic view of the mobile ecosystem.
 - Local-First Architectures: Specialized in building local-first applications, ensuring robust offline functionality and real-time data synchronization.
- **Full-Stack Capability & Scalable Systems**
 - Scalable Backend Engineering: Proficient in designing and maintaining backend services using Java (Spring) and Python (Flask). Experienced in building the APIs that power real-time mobile experiences.
 - Cloud Infrastructure at Scale: Solid knowledge of AWS (EC2, S3, RDS, DynamoDB) focused on auto-scalability and cost-efficiency—essential for hypergrowth environments with millions of users.
 - Web Frontend & Prototyping: Ability to quickly prototype and build intuitive web interfaces using Angular, Tailwind CSS, and vanilla JS to validate product ideas fast.
- **Product Craftsmanship & Ownership**
 - UI/UX Design Sensitivity: Deeply involved in the design process using Figma to bridge the gap between engineering and user experience, ensuring that AI features feel "magical" and intuitive.
 - Data-Driven Decisions: Experience in Data Engineering (Denormalization of large volumes and QlikView dashboards) to analyze user behavior and iterate products based on real-world feedback.
 - Systems Thinking & Shell Scripting: Advanced use of Unix/Bash for automation and infrastructure optimization, anticipating bottlenecks before they impact the user.

Language: English: B2 (First Certificate in English-Cambridge)

Interests: List activities you enjoy that may spark interview conversation

Certifications

OPENEDG PYTHON INSTITUTE

PROGRAMMING ESSENTIALS IN PYTHON

July 2022

- Basic knowledge on the use of Python, dictionaries, tuples, file processing,...

UNITY

UNITY CERTIFIED USER: PROGRAMMER

June 2022

- Knowledge of video game programming using C# and the Unity graphics engine

AWS ACADEMY

AWS ACADEMY CLOUD FOUNDATIONS

June 2022

- Knowledge of the operation of AWS and all its products.

ORACLE ACADEMY

JAVA FUNDAMENTALS

September 2020 – June 2021

- Knowledge of the operation of AWS and all its products.

ORACLE ACADEMY

SQL - DP DATABASE PROGRAMMING WITH SQL LEARNER

September 2021 – December 2021

- Knowledge of the operation of AWS and all its products.
